BOARD OF COMMISSIONERS

ADDENDUM #1

Issue Date: 12/16/05

SPECIFICATION NO. #05-298

FOR

Voice and Data Cabling for Lincoln/Lancaster County Health Department New Addition

Addenda (or addendum if singular) are written instruments issued by the County prior to the date for receipt of offers which will modify or interpret the specification document by addition, deletion, clarification or correction. Please acknowledge receipt of this addendum in the space provided on your bidding document.

Be advised of the following changes to the County's specification and bidding documents:

1. QUESTION: Is fire proofing required in wall penetrations?
ANSWER: Fire proofing is required through any penetration of a fire rated wall.
2. QUESTION: Is cabling required for phone access to the security system, fire alarms, and elevator?
ANSWER: Those requirements will not be part of this bid and will be handled separately as a change order or by the individual system installer.
3. QUESTION: Will there be grounding available in the data closets?
ANSWER: There are no provisions for grounding in the data closets under the original contract. Grounding will be added at a later date. The cable installer will not be required to connect to any grounding in the data closet if grounding is not available at that time.
4. QUESTION: Explain the configuration in the modular furniture where there are multiple drops and work areas.
ANSWER: It is our intention to break out multiple cable drops evenly between all work areas. For example: There are 12 cables being pulled to a modular work area with 4 workstations. We would like to have 3 cables pulled to each work area and terminated via faceplate and jack combination in close proximity to the users work area. Do not terminate all cables at a common location in the modular work area.

All other terms, conditions and requirements of the request remain the same as originally indicated in the document or as modified on previous addenda.

Kathy A. Smith
